Zia

**API → What is an API and how to "consume" it**

### YOUR MISSION

1. Learn about your subject
2. Create working code examples
3. Create a simple slides presentation where you'll have at least this :
  - a. A simple description of your subject (what is it and why use it)
  - b. How you install it (if is the case)
  - c. How do you use it (code examples)
4. Present your findings to the class (15 min)

### YOUR TIMING

Learn and do - Monday to Thursday :  
**4 x 3 hours = 12h**

Presentation - Friday (morning) :  
**15 min**
